

Satellite radio offers a much needed service that normal broadcast stations are not offering to the public. I, along with other subscribers to Satellite Radio, willing pay for the service they provide and strongly object to the attempt by Representatives Pickering and Green to stifle Satellite Radio programming. I hope the FCC reads between the lines and brings to light the real purpose for the lobbyists' intentions for trying to get HR 4026 passed.

I respectfully request that the FCC reject NAB's petition 04-160.
